OVERNMENT AND RESERVISTS At the recent meeting of the National Asso-ciation for the Employment of Reservists and Discharged Soldiers it came out that during ciation for the Employment of Reservists and Discharged Soldiers it cause out that during the last twelve mooths only nine of these men have found berthe in the lower grades of the public service, with the exception of the War Office. The Duke of Connagally, who presided, and Lord Roberts, who moved the sanual report, had full cause to ceasure such a discreditable condition of affairs. Year after para, official pledge have been given to set saide 'a reasonable parcentage of departmental employment for solidiers after the completion of colour service. Every effort would be made, the sation record victorial automate, to provide permanent corress for the reak and file, whether in the Reserve or passed through it. And the fulfilment of these Ministerial understaining in what we have just stated; the Post Office and 'the other chief employing departments, according the missrable horizing and the chief employing departments, according that in Pall-mall, have actually contrived to make, room for nine of the country's military defenders in a year! Lord Roberts stigmatised the inserable horizing an office of the contribution of the contribution of the contribution of the contribution of the complex and the missrable horizing an "most lanestable," while the Duka despity regretted that the Government had not been able to give nore comployment to these deserving insu. Lest wants the Junzs despity regretted that the Government had not been able to give more employment to these deserving men. Last year, out of Lio,006 applicants on the list, occaridensly more than balf were furnished through its instrumentality with permanent berths. And what does that high suthority, fiir Charles Soctor, any about the smen then someted by jank-in-office! The South-Western Railways is no thoroughly satisfied with the conceinations and intelligent way in which they perform their duties that in the last three years it has neathy doubled the number in its unspley; "they found, from long experience," fits 'Gharles depose, "that en-soldiers are steady, sober, househole, and reliable."

INDUSTRIAL DEVELOPMENT OF ALEXANDRIA.

IMPORTANT NEW COMPANY.

IMPORTANT NEW COMPANY.

June 1 will be an important date in the history of the industrial development of Regret's commercial capital, for on Thursday next the Rosetts and Alexandria Rices Mills Company will be learnehed. As is well toward. Rosetts for many years party, and rice milling this fact the only staple of that interesting but decayed dole vicy of Lower Regret. There are, however, many disadvantages in this site, for the railway communication with Rosetts leaves much to be desired, and the transport has and tedious. It is obvious therefore that Alexandria offers far more scope for dealing with a commodity of such general importance to the inhabitants of Regret and of the Lewart generally, for the trade is developing sajidly every year.

inhabitants o Regyl and of the Lewant generally, for the trute is developing rapidly every year.

Consequently an important group of capitalists, embracing many well-known pseucos of Alexandris, Triests, and Massellas, have combined together to start the Rosetts and Alexandris Rives and Alexandris Hulls Company. The machinery will be of the very latest description. It will be sutrively automatic, and will be capable of turning out one handred tons of cleaned rice every day, as against an average turn-out of a Rosesta mill of saven to eight tons per day. Every type of rice will be turned out, from the simple decorations of the strength of the highly gleade finished article. The wants of the Egyptian fallah will be carefully attended to, and special attention will be directed to the manufactore of the "Makona" or salled variety of rice, which native consumption specially affects. When the Egyptian rice trop ends about March, the mill will turn its attention to Rangon rice, which can be impreted in either the rough or cleaned state as units the mill requirements. In the latter case the cleaned rice would undergo the glaing process.

The advantages which the new mill possesses are obvious, and the result will be that he rice trade, which has hithert been concomtrated at Rosetts, must necessarily find its way to Alexandria, and this last nail-will be thereby driven in the coffin of Rosetts' which properly to the benefit of Alexandria.

The mill is to be ready for work in about on of eleven months' time.

Lord Croner remarks as follows on this report:—
"One of the results of the absence of means of ophthalmic relief in the rural districts is the multiplication of quacks, who often do more harm than good to their pasients. The establishment of the travelling hospitals will in some degree muitigate this evil, but the remedy so far applied has necessarily been only very partial. It is a well-known fact, which is confirmed by Dr. Mac Gallan, that a large preportion of the children who attend the Government schools require skilled medical treatment for their eyes."

Three Britsh dimes—the kinelival, Bell is the price of countries and compelled to dispose of their good at wholesal prices. The imports of Macchester cotton good declined 377 tons in volume and £19,375 in value Other countries, however, show a similar decrease, actably lighy.

Asanchester cottou goods declined 877 tons in volume and £19,878 in values Other countries, however, show a similar decrease, notably fealy. Three British sines—the Klucivia, Belliż Ania Minor and Prince Line—have carried on a regular service during the year. The Khedivial Company is, 4 understand, about to establish another service connecting Constantinople with the ports of Anatolia, Carismania, Syria and Egypte.

The exports being £1,376,207, show a decrease of £24,416. The imports amount to £292,228, being a decrease of £27,227 on those of the previous year.

The arports to the United Kingdom and Cyprus have insen from £23,413 doring the year 19-8 to £203,838 doring 1904, showing these are the control of the year year from the United Kingdom and Cyprus, the £203,838 doring 1904, showing the same increase of £78,809. There is a slight decrease amounting to £2,254 in the imports of the past year from the United Kingdom and Cyprus, the £203,838 doring conclaints is decidedly favourable to the United Kingdom. The general companion conclaints is decidedly favourable to the United Kingdom. Although, in common with other nations, her share of the import trade has slightly decreased, the "United Kingdom has easily out-distanced other nations in the increase of her share of the export rands.

ITALY AND TRIPOLIS

(FROM OUR CORRESPONDENT)

Roux, May 21. Perhaps more than any ollier country liarly has period of a contrement over certain things, and now for about four weeks the whole attention has been aborbed by foreign politics, especially by the question of all lines, interpelations in the Senata, interrogations in the Tripoli, with weaktons of all lines, interpelations in the Senata, interrogations in the Chamber, and disconsions or the Foreign Bodget; so that of those who are not accustomed to the nature of the country it might seem that the Peninsuis is going to declarate war on the whole world, while in residity in a fortingibt all will be over. The question of Tripoli is, however, very interacting, as flusty, seeing herself thirstened with being surrounded in the Mediterraneaus, nucosed in agreeing with England and France that the only part of North Larlet to her intige, to the folial control of the seed of the seed of the Mediterraneaus, we consoled in agreeing with England and France that the only part of North Larlet to her intige, to the folial control of the seed of the seed of the Mediterraneaus, which the larlet is the seed of the Mediterraneaus, which the larlet is the seed of the seed

A reviewer of books in a daily paper has been looking into the matter of the Society norwl, and has come to the conclusion that, if the novelists are to be relief on, there is a marked coarcity of desent people in the fabricansle world. In three books, professing to reflect with accuracy the manners and customs of the Best People, we find no fewer than nine of the characters (including the hero and haroime of one of the books) chesting at Bridgs. To judge from the modern subtor, the standard of card-norsality in Beigravia would appear to be lower than that in a Bowery saloon.
